PROFESSIONAL SUMMARY

Frontend Engineer with 5 years of experience building performant SPAs and CMS-driven web applications using React.js, Next.js, and WordPress. Skilled in component-based architecture, REST API integration, and translating Figma/Adobe XD designs into pixel-perfect, mobile-first interfaces. Experienced in delivering cross-browser compatible, SEO-optimized, and accessible UIs across agile teams with CI/CD workflows. Adept with both modern JavaScript frameworks and headless CMS platforms.

TECHNICAL SKILLS

Frameworks & Libraries: React.js, Next.js, Vue.js, jQuery, GSAP, AOS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, PHP

Styling: Tailwind CSS, Bootstrap, Responsive / Mobile-First Design

CMS & E-commerce: WordPress (Custom Themes, ACF, Gutenberg, REST API), Shopify (Liquid), Elementor

Integration & APIs: REST API Integration, Third-Party Plugins & APIs

Tools & Workflow: Git, CI/CD Pipelines, Figma, Adobe XD, Agile / Scrum

Performance & SEO: Core Web Vitals, Page Speed Optimization, SEO Best Practices, Accessibility WCAG

WORK EXPERIENCE

Software Engineer | Cubix Pvt Ltd

Feb 2023 - Present

- Architected and maintained scalable, component-based SPAs using React.js, Next.js, and Vue.js for multiple client and in-house products.
- Integrated REST APIs and third-party services into dynamic frontend interfaces, improving data-driven functionality across projects.
- Built CMS-based frontends using Laravel Blade templates, delivering pixel-perfect implementations from Figma and Adobe XD designs.
- Ensured cross-browser compatibility, mobile responsiveness, and Core Web Vitals performance optimization across all projects.
- Collaborated with UI/UX designers and backend developers in Agile/Scrum ceremonies, code reviews, and CI/CD pipelines.
- Contributed to internal component library standards, improving code reusability and maintainability across teams.

Frontend & CMS Developer | Golpik

May 2022 – Feb 2023

- Developed responsive, interactive frontend interfaces using HTML5, CSS3, JavaScript, jQuery, and React.js with a focus on mobile-first design.
- Built and customized WordPress and Shopify themes and plugins to meet diverse client requirements, including Liquid template customizations.

- Integrated third-party APIs and plugins for dynamic content, forms, and e-commerce functionality.
- Delivered SEO-optimized, performance-tuned CMS websites with measurable improvements in page speed and search visibility.
- Collaborated cross-functionally with backend developers, designers, and digital marketing teams on end-to-end web solutions.

Frontend & WordPress Developer | Pluton Ltd

Jul 2020 – May 2022

- Developed custom, responsive WordPress themes using HTML5, CSS3, JavaScript, and PHP, including custom post types and Gutenberg blocks.
- Built SEO-optimized, accessible websites using Elementor, ACF (Advanced Custom Fields), and WordPress REST API integrations.
- Translated Figma and Adobe XD mockups into fully functional, cross-browser compatible pages with interactive UI effects via GSAP and AOS.
- Managed WordPress migrations, backups, and site performance optimization, improving page load times across client projects.
- Implemented Git version control and collaborated in Agile/Scrum environments across client-facing and internal projects.
